Research outputs

Roadmap for enhanced CO2 transfer hydrogenation with bio-derived glycerol over Ni-zeolite catalysts: Influence of zeolite structure and Si/Al ratio
Rouse, N. V., Fernandez Martin, C., McCue, A. & Graca, I. (Corresponding Author), 20 Aug 2025, (E-pub ahead of print) In: Journal of CO2 Utilization. 101, 103199.

On the potential of microwave heating to convert waste into added-value chemicals and materials: a review
Dan, E., McCue, A., Dionisi, D. & Fernandez Martin, C. (Corresponding Author), 22 May 2025, In: Philosophical Transactions of the Royal Society of London. Series A. 383, 2297, 27 p., 20240071.

Innovative pathways in CO2 conversion to chemicals and fuels: Emerging transfer hydrogenation versus traditional hydrogenation
Rouse, N. V., Fernandez Martin, C., McCue, A. & Biscaya Semedo Pereira da Graca, I., 23 Jan 2025, (E-pub ahead of print) *Encyclopedia of Renewable Energy Engineering.* Elsevier

Scientific Committee Member for AMPERE25 International Conference
Fernandez Martin, C., 2025

The role of the activation heating source on the carbon capture performance of two new adsorbents produced from household-mixed-plastic waste
Dan, E., McCue, A., Dionisi, D. & Fernandez Martin, C. (Corresponding Author), 30 Nov 2024, In: Journal of CO2 Utilization. 89, 13 p., 102950.

Paving the way to transfer hydrogenation of CO2 with bio-derived glycerol over Ni supported zeolite catalysts
Rouse, N. V., Fernandez Martin, C., McCue, A. & Biscaya Semedo Pereira da Graca, I. (Corresponding Author), 25 Nov 2024, In: Applied Catalysis A: General. 687, 19 p., 119971.

Sustainable materials and greener processes for carbon capture by means of adsorption: the role of microwaves (Keynote)
Fernandez Martin, C. (Speaker), 21 Jul 2024.

Household mixed plastic-derived adsorbents for CO2 capture: A feasibility study
Dan, E. U. (Speaker), Fernandez Martin, C., McCue, A. & Dionisi, D., 20 Jul 2024.

Isomerisation of glucose into fructose over basic zeolite catalysts
Muhammad, M. B. (Speaker), Fernandez Martin, C., McCue, A. & Biscaya Semedo Pereira da Graca, I., 14 May 2024.

Mixed plastic waste: an untapped and sustainable carbon source for producing CO2 adsorbents
Dan, E. U. (Speaker), McCue, A., Dionisi, D. & Fernandez Martin, C., 14 May 2024.

Sustainable materials and greener processes for carbon capture: the role of microwave heating: Invited Talk
Fernandez Martin, C. (Speaker), 14 May 2024.

Towards low-cost and sustainable activated carbon production: influence of microwave activation time on yield and CO2 uptake of PET-derived adsorbents
Dan, E. U., McCue, A., Dionisi, D. & Fernandez Martin, C. (Corresponding Author), May 2024, In: Journal of CO2 Utilization. 83, 13 p., 102807.

Household Mixed Plastic Waste Derived Adsorbents for CO2 Capture: A Feasibility Study
Dan, E., McCue, A., Dionisi, D. & Fernandez Martin, C. (Corresponding Author), Mar 2024, In: Journal of Environmental Management. 355, 9 p., 120466.

Greener carbon capture using microwave heating for the development of cellulose-based adsorbents
Biti, S., McCue, A., Dionisi, D., Biscaya Semedo Pereira da Graca, I. & Fernandez Martin, C. (Corresponding Author), 15 Feb 2024, In: Fuel. 358, Part B, 11 p., 130246.

Activated-Carbon-Doped Non-Solvent-Induced Phase-Inversion Membranes: A Comprehensive Study on Synthesis, Characterisation, and Performance Evaluation
Mompó-Curell, R. (Corresponding Author), Biti, S., Iborra-Clar, A., Iborra-Clar, M. I., Garcia-Castello, E. M. & Fernández-Martín, C., 1 Feb 2024, In: Sustainability. 16, 3, 20 p., 1150.

Biomass-derived materials for carbon capture: a review
Dan, E., McCue, A. & Fernandez Martin, C. (Corresponding Author), 2024, *Encyclopedia of Renewable Energy Engineering.* Elsevier

Development of sustainable adsorbents for post combustion carbon capture using conventional and microwave heating
Biti, S. B., Fernandez Martin, C., McCue, A., Biscaya Semedo Pereira da Graca, I. & Dionisi, D., 20 Nov 2023, *Proceedings of AMPERE2023: 19th International Conference on Microwave and High Frequency Applications.* Zenodo, p. 84-85 2 p.

Influence of microwave activation time on CO2 uptake capacity of PET-derived adsorbents
Dan, E. U., Fernandez Martin, C., McCue, A. & Dionisi, D., 20 Nov 2023, *Proceedings of AMPERE2023: 19th International Conference on Microwave and High Frequency Applications.* Zenodo, p. 34-35 2 p.

Effect of feed concentration and residence time on anaerobic fermentation in CSTR and SBR to produce short-chain organic acids
Simonetti, S., Collie-Duguid, E., Fernandez Martin, C., Louis, P., Pu, J., Smith, E. & Dionisi, D. (Corresponding Author), Oct 2023, In: Journal of Environmental Chemical Engineering. 11, 5, 12 p., 110461.

Cheap, Green, and Efficient: Microwave-assisted production of value-added carbons from 'real-world' mixed plastics for CO2 capture
Dan, E. U., McCue, A., Dionisi, D. & Fernandez Martin, C., 29 Sept 2023.

Post-combustion CO2 application of sustainable hybrid adsorbent derived from bio-conjugated amino acid on MCM-41
Ekpo, V., Fernandez Martin, C., Biscaya Semedo Pereira da Graca, I. & McCue, A., 29 Sept 2023.

Glucose isomerisation into fructose over alkali/alkaline-earth metal-supported NaY zeolites
Muhammad, M. B. (Speaker), Fernandez Martin, C., McCue, A. & Biscaya Semedo Pereira da Graca, I., 4 Sept 2023.

Transfer hydrogenation of carbon dioxide with bio-derived glycerol over zeolite-based catalysts
Rouse, N. V. (Speaker), Fernandez Martin, C., McCue, A. & Biscaya Semedo Pereira da Graca, I., Sept 2023.

Melamine-Doped PET-derived Adsorbents for Post-Combustion CO2 Capture
Dan, E. U. (Speaker), McCue, A., Dionisi, D. & Fernandez Martin, C., 21 Jul 2023.

Feasibility of amino acid functionalized mesoporous silica synthesis and application for post-combustion CO2 capture
Ekpo, V. F. (Speaker), McCue, A., Biscaya Semedo Pereira da Graca, I. & Fernandez Martin, C., 17 May 2023.

Photoreduction of CO2 to upgraded chemical products over zeolite-based catalysts
Muhammad, M. B. (Speaker), Fernandez Martin, C., McCue, A. & Biscaya Semedo Pereira da Graca, I., 17 May 2023.

CO2 catalytic conversion into fuels and fuel-precursors using biomass-derived H-donors
Rouse, N. (Speaker), Fernandez Martin, C., McCue, A. & Biscaya Semedo Pereira da Graca, I., 15 May 2023.

Melamine-Doped PET-Derived Adsorbents for Post-combustion CO2 Capture
Dan, E. U. (Speaker), McCue, A., Dionisi, D. & Fernandez Martin, C., 15 May 2023.

Sustainable microcrystalline cellulose-based activated carbons for a greener carbon capture at post-combustion conditions
Biti, S., McCue, A., Dionisi, D., Graca, I. & Fernandez Martin, C. (Corresponding Author), May 2023, In: International journal of greenhouse gas control. 125, 15 p., 103876.

Development of Sustainable Adsorbents for Post Combustion Carbon Capture: Conventional vs. Microwave-Assisted Activation
Biti, S., Fernández Martín, C., McCue, A., Graça, I. & Dionisi, D., 2023, *19th International Conference on Microwave and High-Frequency Applications, AMPERE 2023 - Conference Proceedings.* Slocombe, D. (ed.). Zenodo, p. 84-85 2 p.

Production, activation and CO2 uptake capacity of a carbonaceous microporous material from palm oil residues
Moliner, C., Focacci, S., Antonucci, B., Moreno , A., Biti, S., Hamzah, F., Martinez-Felipe, A., Arato, E. (Corresponding Author) & Fernandez Martin, C., 2 Dec 2022, In: Energies. 15, 23, 12 p., 9160.

Microwave pre-treatment of model food waste to produce short chain organic acids and ethanol via anaerobic fermentation
Simonetti, S., Fernandez Martin, C. & Dionisi, D. (Corresponding Author), 12 Jun 2022, In: Processes. 10, 6, 14 p., 1176.

Microwave Research at the School of Engineering University of Aberdeen
Fernandez Martin, C. (Corresponding Author), 26 Apr 2022, Ampere Newsletter: Trends in RF and Microwave Heating, 110, p. 4-5 2 p.

Assessment of an integrated adsorption-regenerative catalytic oxidation process for the harnessing of lean methane emissions
Chaemwinyoo, U., Marín, P., Fernández Martín, C., Ordóñez García, S. (Corresponding Author) & Díez, F. V., Feb 2022, In: Journal of Environmental Chemical Engineering. 10, 1, 11 p., 107013.

A systematic analysis of the dynamics of microwave- and conventionally-assisted swing adsorption on zeolite 13X and an activated carbon under post-combustion carbon capture conditions
Yassin, M. M., Biti, S., Afzal, W. & Fernández Martín, C. (Corresponding Author), 1 Dec 2021, In: Journal of Environmental Chemical Engineering. 9, 6, 14 p., 106835.

Effects of the heating source on the regeneration performance of different adsorbents under post-combustion carbon capture cyclic operations: A comparative analysis
Yassin, M. M., Anderson, J. A., Dimitrakis, G. A. & F. Martin, C. (Corresponding Author), 1 Dec 2021, In: Separation and Purification Technology. 276, 15 p., 119326.

A comparative analysis of microwave-assisted regeneration against conventional regeneration for post-combustion carbon capture
Yassin, M., Biti, S., Afzal, W. & Fernandez Martin, C. (Corresponding Author), 4 Nov 2021, *AMPERE 2021 Proceedings : Virtual Conference 13-16 September 2021.* Zenodo, p. 2 1 p.

Cellulose-based activated carbon for post-combustion CO2 Capture
Biti, S. B. (Speaker), Dionisi, D., Biscaya Semedo Pereira da Graca, I. & Fernandez Martin, C., 21 Oct 2021.

Anaerobic fermentation for the production of short chain organic acids: product concentration, yield and productivity in batch experiments at high feed concentration
Simonetti, S., Fernandez Martin, C. & Dionisi, D. (Corresponding Author), Oct 2021, In: Journal of Environmental Chemical Engineering. 9, 5, 106311.

Acidogenic fermentation of model food waste for the production of added-value chemicals: effect of substrate concentration and residence time
Simonetti, S., Fernandez Martin, C. & Dionisi, D., 28 Jun 2021.

Molecular Dynamics Simulation of the Interactions between Carbon Dioxide and a Natural-Based Carbonaceous Microporous Material
Moliner, C., Antonucci, B., Focacci, S., Heap, J. M., Martel, A. M., Hamzah, F., Martín, C. F. & Martinez-Felipe, A., 15 Jun 2021, In: Chemical Engineering Transactions. 86, p. 1111-1116 6 p.

Effect of substrate concentration and retention time on the anaerobic digestion of food waste for the production of valuable chemicals
Simonetti, S., Fernandez Martin, C. & Dionisi, D., 26 May 2021, *RETASTE: Rethink Food Waste.* Manios, T., Lasaridi, K. & Daliakopoulos, I. (eds.). Athens: Hellenic Mediterranean University, p. 145 1 p.

Molecular dynamics simulation of the interactions between carbon dioxide and a natural-based carbonaceous microporous material
Moliner, C. (Corresponding Author), Antonucci, B., Focacci, S., Hamzah, F., Fernandez Martin, C., Martinez-Felipe, A., Heap, J. M. & Moreno Martel, A., 26 May 2021.

Sustainable adsorbents from food-based waste
Sky East Ltd. research collaboration & Fernandez Martin, C., 15 Feb 2021

Product Concentration, Yield and Productivity in Anaerobic Digestion to Produce Short Chain Organic Acids: A Critical Analysis of Literature Data
Simonetti, S., Saptoro, A., Fernandez Martin, C. & Dionisi, D. (Corresponding Author), 25 Nov 2020, In: Processes. 8, 12, 17 p., 1538.

Modelling & characterisation of sustainable adsorbents for CO2 capture
Biti, S. B., Yassin, M. M. & Fernandez Martin, C., 20 Nov 2020.

Effect of substrate concentration and retention time on the anaerobic fermentation of food waste
Simonetti, S., Dionisi, D. & Fernandez Martin, C., 26 Jun 2020.

Feasibility of microwave-assisted pre-treatment of lignocellulosic feedstocks to produce added-value chemicals and materials
Biti, S. B. (Speaker), Dionisi, D., Louis, P. & Fernandez Martin, C., 16 May 2020.

Dielectric properties assessment during dynamic microwave-assisted carbon capture cyclic operations
Fernandez Martin, C. (Speaker), Baños, B., Yassin, M. M. & Catala-Civera, J. M., 9 Sept 2019.

Microwave-assisted regeneration of solid adsorbents for CO2 capture in post-combustion processes
Yassin, M. M. (Speaker), Anderson, J., Afzal, W. & Fernandez Martin, C., 9 Sept 2019.

Anaerobic digestion of food waste for the production of chemicals
Simonetti, S., Dionisi, D. & Fernandez Martin, C., 2 Jul 2019.

Anaerobic digestion of model food waste at high and low concentration for the production of chemicals
Dionisi, D., Fernandez Martin, C. & Simonetti, S., 2019.

Microwave swing regeneration of aqueous monoethanolamine for post-combustion CO2 capture
McGurk, S. J., Martin, C. F., Brandani, S., Sweatman, M. B. (Corresponding Author) & Fan, X. (Corresponding Author), 15 Apr 2017, In: Applied Energy. 192, p. 126-133 8 p.

Dynamic assessment of dielectric properties of adsorbents during microwave-assisted carbon capture cyclic operations
Fernandez Martin, C., Baños, B. & Catala-Civera, J. M., 2017, *Proceedings: 6th ETP Annual Conference 2017.* Edinburgh, United Kingdom.

Wet impregnation of a commercial low cost silica using DETA for a fast post-combustion CO2 capture process
Martin, C. F., Sweatman, M. B., Brandani, S. & Fan, X. (Corresponding Author), 1 Dec 2016, In: Applied Energy. 183, p. 1705-1721 17 p.

Intensification of CO2 capture processes using microwave heating
Fernandez Martin, C., Sweatman, M., Brandani, S. & Fan, X. (Collaborator), 26 Sept 2016, *3rd Global Congress on Microwave Energy Applications: Book of Abstracts.* Fernández , J. F. & Cabrera, J. M. (eds.). Spain: Polytechnic University of Cartagena

Recycling of household plastics. A report on recycling technologies for MRO's residues
Moray Reach Out research collaboration & Fernandez Martin, C., 20 Jun 2016, 43 p.

Recycling solutions for Emtelle's residues'
Emtelle UK Ltd. research collaboration, 2 Feb 2016, 39 p.

CO2 adsorption using TiO2 composite polymeric membranes: A kinetic study
Hafeez, S., Fan, X., Hussain, A. & Martin, C. F., 1 Sept 2015, In: Journal of Environmental Sciences. 35, p. 163-171 9 p.

Dynamic cyclic performance of phenol-formaldehyde resin derived carbons for pre-combustion CO_2 capture: An experimental study
Garcia, S., F. Martin, C., Pis, J. J., Rubiera, F. & Pevida, C., 2013, In: Energy Procedia. 37, p. 127-133 7 p., GHGT-11.

Precombustion CO2 capture by means of phenol–formaldehyde resin-derived carbons: from equilibrium to dynamic conditions
Martin, C. F., Garcia, S., Beneroso, D., Pis, J. J., Rubiera, F. & Pevida, C., 19 Sept 2012, In: Separation and Purification Technology. 98, p. 531-538 8 p.

Doped phenol-formaldehyde resins as precursors for precombustion CO2 capture adsorbents
Fernandez Martin, C., Garcia, S., Pis, J. J., Rubiera, F. & Pevida, C., May 2012, *10th International Conference on Greenhouse Gas Control Technologies 2010 (GHGT-10).* Gale, J. (ed.). Amsterdam, Holland: Elsevier Procedia, p. 1222-1227 6 p.

Study of the CO2 capture performance of two activated carbons in a bench scale PSA system
Fernandez Martin, C., Garcia, S., Pis, J. J., Rubiera, F. & Pevida, C., 2012, *Proceedings: International Conference on Chemical Engineering ANQUE-ICCE.* Seville, Spain

Breakthrough adsorption study of a commercial activated carbon for pre-combustion CO2 capture
Garcia, S., Gil, M. V., Martin, C. F., Pis, J. J., Rubiera, F. & Pevida, C., 1 Jul 2011, In: Chemical Engineering Journal. 171, 2, p. 549-556 8 p.

Microporous phenol-formaldehyde resin-based adsorbents for pre-combustion CO2 capture
Martin, C. F., Plaza, M. G., Garcia, S., Pis, J. J., Rubiera, F. & Pevida, C., May 2011, In: Fuel. 90, 5, p. 2064-2072 9 p.

Hypercrosslinked organic polymer networks as potential adsorbents for pre-combustion CO2 capture
Martin, C. F., Stockel, E., Clowes, R., Adams, D. J., Cooper, A. I., Pis, J. J., Rubiera, F. & Pevida, C., 14 Apr 2011, In: Journal of Materials Chemistry. 21, 14, p. 5475-5483 9 p.

Doped phenol-formaldehyde resins as precursors for precombustion CO2 capture adsorbents
Martin, C. F., Garcia, S., Pis, J. J., Rubiera, F. & Pevida, C. (Corresponding Author), 1 Apr 2011, In: Energy Procedia. 4, p. 1222-1227 6 p.

Dynamic assessment of the equilibrium CO2 adsorption capacity of a commercial activated carbon for pre- combustion capture

Garcia, S., Gil, M. V., Fernandez Martin, C., Pis, J. J., Rubiera, F. & Pevida, C., 2011, *Proceedings of the Fifth International Conference on Clean Coal Technology.* Zaragoza, 9 p.

Synthesis of hypercrosslinked organic polymers for pre-combustion carbon capture
Fernandez Martin, C., Stöckel, E., Clowes, R., Adams, D. J., Cooper, A. I., Pis, J. J., Rubiera, F. & Pevida, C., 2011, *Proceddings: XI Reunión del Grupo Español del Carbón (GEC).* Badajoz, Spain, p. 65-66

On the limits of CO2 capture capacity of carbons
Martin, C. F., Plaza, M. G., Pis, J. J., Rubiera, F., Pevida, C. & Centeno, T. A., 17 Aug 2010, In: Separation and Purification Technology. 74, 2, p. 225-229 5 p.

Developing almond shell-derived activated carbons as CO2 adsorbents
Plaza, M. G., Pevida, C., Martin, C. F., Fermoso, J., Pis, J. J. & Rubiera, F., 29 Jan 2010, In: Separation and Purification Technology. 71, 1, p. 102-106 5 p.

Development of carbon-based adsorbents from phenol-formaldehyde resins for pre-combustion CO2 capture
Fernandez Martin, C., Martínez, M., Centeno, T. A., Pevida, C., Pis, J. J. & Rubiera, F., 2010, *Proceedings: X Reunión del Grupo Español del Carbón (GEC).* Gerona, Spain, p. 255-256

Regeneration strategies of carbon capture adsorbents in cyclic operation
Garcia, S., Junco, S., Plaza, M. G., Fernandez Martin, C., Pevida, C. & Rubiera, F., 2010, *Proceedings: 8th European Conference on Coal Research and Its Applications.* Leeds, United Kingdom

Regeneration strategies of solid sorbents for CO2 capture cyclic processes
García, S., Junco, S., Plaza, M. G., Fernandez Martin, C., Pevida, C., Rubiera, F. & Pis, J. J., 2010, *Proceedings: X Reunión del Grupo Español del Carbón (GEC).* Gerona, Spain, p. 249-250

Development of low-cost biomass-based adsorbents for postcombustion CO2 capture
Plaza, M. G., Pevida, C., Arias, B., Fermoso, J., Casal, M. D., Martin, C. F., Rubiera, F. & Pis, J. J., Dec 2009, In: Fuel. 88 , 12, p. 2442-2447 6 p.

Different approaches for the development of low-cost CO2 adsorbents
Plaza, M. G., Pevida, C., Arias, B., Casal, M. D., Martin, C. F., Fermoso, J., Rubiera, F. & Pis, J. J., Jun 2009, In: Journal of Environmental Engineering. 135, 6, p. 426-432 7 p.

Ammonia-modified biomass-based carbons as CO_2 Adsorbents
G. Plaza, M., Pevida, C., Casal, M. D., Fernandez Martin, C., Fermoso, J., Rubiera, F. & Pis, J. J., 2009, *Proceedings: Carbon'09. The Annual World Conference on Carbon.* Biarritz, p. 356-359 4 p.

Carbon adsorbents for post-combustion CO2 capture
G. Plaza, M., Pevida, C., Fernandez Martin, C., Casal, M. D., Fermoso, J., Rubiera, F. & Pis, J. J., 2009, *Proceedings of the Fourth International Conference on Clean Coal Technology.* Dreseden, 9 p.

Flue-gas CO2 capture on activated carbons produced from biomass wastes
Plaza, M. G., Fernandez Martin, C., Fermoso, J., Pevida, C., Rubiera, F., Centeno, T. A. & Pis, J. J., 2009, *Proceedings: RECIMAT 09. Conferencia sobre Reciclado de Materiales y Eco-Ene..*

Microporous adsorbents from phenol formaldehyde resins for precombustion CO2 capture
Fernandez Martin, C., Pevida, C., Casal, M. D., Plaza, M. G., Fermoso, J., Rubiera, F. & Pis, J. J., 2009, *Proceedings: Carbon'09. The Annual World Conference on Carbon.* Biarritz, 6 p.

Microporous resin adsorbents for pre-combustion CO2 capture
Fernandez Martin, C., Pevida, C., Casal, M. D., G. Plaza, M., Fermoso, J., Rubiera, F. & Pis, J. J., 2009, *Proceedings of the Fourth International Conference on Clean Coal Technology.* Dreseden, 9 p.

Pressurised gasification of coal and biomass for the production of H2-rich gas
Fermoso, J., Arias, B., G. Plaza, M., Pevida, C., Casal, M. D., Fernandez Martin, C., Rubiera, F. & Pis, J. J., 2009, *Proceedings of the Fourth International Conference on Clean Coal Technology.* Dresden, 9 p.

Relationship between textural properties and CO2 capture capacity of phenolic resin-derived activated carbons
Pevida, C., Centeno, T. A., Rubiera, F., Tennison, S., Kozynchenko, O., Plaza, M. G., Fernandez Martin, C., Fermoso, J., Stoeckli, F. & Pis, J. J., 2009, *Proceedings: Carbon'09. The Annual World Conference on Carbon.* Biarritz, France

Production of carbon adsorbents for pre-combustion CO2 capture
Rubiera, F., Pevida, C., Plaza, M. G., Fernandez Martin, C., Casal, M. D., Arias, B., Fermoso, J. & Pis, J. J., 2008, *Proceedings: International Symposium about Capture and Storage of CO2.* Seville, Spain
